Brief Overview of Academic Program

The Honors Seminar on Public Policy and Global Affairs offers Carolina undergraduates of all majors and minors a unique learning, living, and internship opportunity in our nation’s capital. The seminar offers students first-hand engagement with the actors and organizations—across the public, private and non-profit sectors—that influence domestic and global affairs in Washington, D.C. It aims to expose students to a range of topics that focus on U.S. economic prosperity, national security, and the U.S. role in the broader global community. Internship placements provide opportunities for students to apply academic learning, to derive new insights and questions for seminar discussion, and to work directly with substantive experts.

The seminar is organized around these key components:

1) The Thursday morning seminar (9am-12pm) examines a range of domestic and global policy challenges, including economic-well-being, income inequality and policy, foreign policy, national security and intelligence policy, global development and poverty, universal education, environment and development, and others.

2) The Thursday afternoon seminar (2-5pm) is devoted to learning from public, private and non-profit actors and understanding their roles in addressing and solving major domestic and global problems. We meet and visit with experts in their place of work.

3) Students intern (4 days a week) with public sector or policy-relevant private and non-profit organizations.

4) Several group excursions are planned, including a think tank conference, a performance at the Kennedy Center for the Performing Arts, a visit to a major museum and a 3 day trip to New York City. UNC alumni mentors lead weekly informal professional development sessions.

Application Deadline: September 10, 2021
